REVITALIZE
PLASTIC SURGERY & MEDICAL SPA

TouchMD

Access Your myTouchMD Account

At Revitalize Plastic Surgery and Medical Spa, we use TouchMD, an interactive patient education platform designed to keep you informed and engaged throughout your care. As our patient, you'll have your own secure account—accessible through a web portal or the myTouchMD smartphone app.

With myTouchMD, you can:

- Explore procedures and services offered by your provider
- Review educational topics hand-selected for you
- Revisit your consultations, saved to your personal timeline
- Receive and complete consents and informational pieces

Getting Started

Step 1: Look for Your Welcome Email.

- Sent by TouchMD Messages
- Subject line: Revitalize Plastic Surgery and Medical Spa Welcomes you to myTouchMD
- Follow the link within the email to set your password

Step 2: Log In Anywhere

- Visit patient.touchmd.com
- OR download the myTouchMD app on your smart phone.
  Tip: If you don't see the Welcome Email, check your spam or junk folders.

Photos

Before your consultation, you may upload photos of your area of concern directly to your account through the myTouchMD app. These images help us provide the most personalized recommendations during your visit.

Guidelines for Taking Photos

- Angles: Take one photo of each angle of the area (face, body, breast, etc.).
- Self-Taken Photos: Use a mirror for body/breast photos, or the selfie mode for facial photos.
- Ask for Help: Have a friend or family member take your photos.
- Background & Lighting: Choose a plain background (like a blank wall), keep the camera level at a consistent distance, and use good lighting to ensure clarity.

Uploading a Photo

To upload a picture please review these instructions. You can also visit https//www.touchmd.com/patientresources for more information.

Although you may upload an image to your TouchMD account via the web portal, it is much easier to do so via the myTouchMD app on your mobile device.

1. Install & sign into the myTouchMD patient app
2. Select the menu in the upper right-hand corner and tap "Add Photo"
3. Review and agree to the terms by selecting "I Agree"
4. Take or upload a photo and select " Upload"

Images uploaded by these means will be seen by your provider/doctor in their portion of TouchMD.

Note: Your provider/doctor will not be notified of this upload. Please contact our office directly to inform us of this upload.

Why Use myTouchMD?

TouchMD makes your experience more interactive, personal, and convenient. It allows you to stay connected with your provider, review your care plan anytime, and feel confident as you explore your options with us. We are here to help. If you need further assistance, please call our office.
